

FOCUS SALMO

Complete extruded feed for trout pigmentation

Focus Salmo is the innovative Skretting proposal for trout pigmentation. The experience gained over the years in salmon has been applied to this product line, specifically formulated to protect carotenoid pigments from oxidation. This is achieved through an accurate choice of raw materials, and the exclusion of pro-oxidant components (haemoglobin is not allowed, being rich in pro-oxidant iron).

Focus Salmo ML is the product recommended for maintenance.

Focus Salmo PR is the appropriate choice under different conditions, being formulated at a medium energy level.

Focus Salmo ML and Focus Salmo PR are available as sinking products.

Chemical Analysis

Composition%	Focus Salmo
Crude Protein	40.0
Crude Fats and Oils	24.0
Crude Fibre	3.0
Crude Ash	5.5
Phosphorus	0.8
Digestible Energy (MJ/kg)	18.8

Ingredients:

Refer to the label.

Suggestions for daily feed allowance (as % biomass)*

Focus Salmo	ø	Fish weight g	<6°C	6°C	8°C	10°C	12°C	14°C	16°C	18°C	>18°C
ML/PR	6.0/6.7	140-400	**	0.7	0.9	1.1	1.3	1.4	1.5	1.2	***
ML/PR	6.0/6.7	> 400	**	0.4	0.7	0.9	1.1	1.2	1.3	1.0	***

*The feeding table above is a general guideline. The Skretting Technical Service is ready to assist you in designing a tailored feed management strategy applying the Skretting RMax concept.

**Follow feeding activity of fish.

***Feed according to DO level.

Environment (estimated for 3 Period as kg/ton production)

FCR	Soluble N	Fecal N	Soluble P	Fecal P
0.9	16.1	11.5	1.4	3.6
1.0	26.3	14.1	2.6	4.4

The information provided in this sheet is only a guideline. For the official statement refer to the label.
